

English Match - Prone - Day 2021 in memory of olympic prone shooting

Berlin, Saturday, 24th July 2021

Dear shooting friends,

at the 2016 Rio Olympic Games, the prone discipline was (unfortunately) held for the last time. With our competition, which will also take place every four years, we would like to remember and continue some of the tradition.

We have invited many shooters who have previously had success in this discipline. The competition day begins with the live broadcast of the 3x40 women's Olympic final in Tokyo. Afterwards, our competition begins.

The company Walther will provide smallbore rifles for those who arrive without their own rifle (please note this in your application!) An experienced trainer will help with the rifle adjustments. The last round of competition will be reserved for the more high-profile shooters, after which the grand final starts.

We look forwards to seeing you! Welcome to Berlin!

The Team of PSV Olympia Berlin e.V.
